

HAVAL

DRIVE INTO A **SMART** NEW WORLD
INTRODUCING THE ALL-NEW HAVAL **H6 HYBRID**

HEV
Hybrid Electric Vehicle

A HYBRID EXPERIENCE

Introducing the All-New Haval H6 Hybrid Electric Vehicle (HEV), the first-ever self-charging Haval Hybrid in South Africa.

The All-New H6 Hybrid emits a combined 121g/km CO₂ and has a decreased fuel consumption of only 5.2L/100km* due to the hybrid technology of the petrol engine and electric motor.

Besides less pollution and more performance, the Haval Hybrid brings together the best of petrol and electric engines to create a powerful, yet fuel-friendly SUV that changes the way you drive.

STEP INTO AN ERA OF **INNOVATION**

Under the H6 HEV's stylish hood is the responsive Petrol Engine that produces 113kW/233Nm and Battery Power of 139kW/300Nm, this produces a combined output of 179kW and 530Nm of torque. Proven to be one of our most awe-inspiring hybrid sports performers yet, the New H6 HEV is ready to take you from 0-100 Km/h in a rewarding 8,5 Seconds.

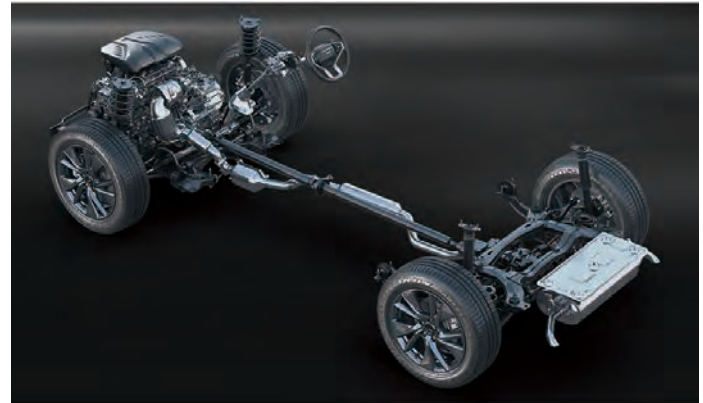

When it comes to driving modes, this icon of pure efficiency offers you four modes: Standard, Eco, Sport, and Snow. There are three advanced Dynamic Steering modes to further tailor your driving experience.

Power is delivered through the state-of-the-art Direct Hybrid Transmission (DHT), that guarantees you experience impressive acceleration, power at lower speeds, and improved fuel economy at higher speeds.

1.5 Turbo Petrol Hybrid

DHT (Direct Hybrid Transmission)

Front Macpherson Rear Multi-link Independent Suspension + 2WD

THE PINNACLE OF **FUTURISTIC** SIMPLICITY

Your smart new world is a push-start away as the all-new H6 Hybrid offers you smart keyless entry. Adding to the already driver-centric cabin you'll find Carplay and Android Auto, paired with 8 exceptional speakers to bring more enjoyment to every journey.

Experience complete control and convenience when navigating with the 10.25 Inch Colour Combination Instrument, 12.3" Colour Multi-Touch Screen, and pioneering Head-Up Display.

Panoramic Sunroof

6-Way Electric Adjustable Driver's Seat

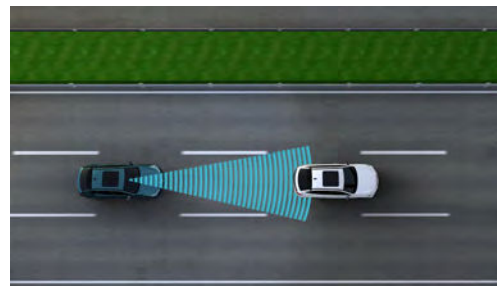

JOIN THE **SMART** NEW MOVEMENT

Experience refined confidence and control when behind the wheel of this Hybrid performer with its Electronic Stability System (ESC), Traction Control (TCS), Adaptive Cruise Control (ACC) with Intelligent Cruise and Traffic Jam Assist.

The Lane Departure Warning (LDW), Lane Keeping Assist (LKA) and Lane Centre Keeping (LCK) make every drive more memorable while also ensuring esteemed safety throughout any event.

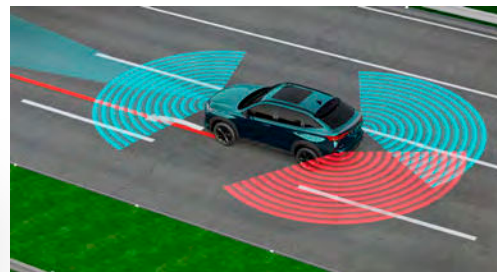

- Cornering Brake Control (CBC) and Brake Assist (BA)
- Hill Decent (HDC) and Uphill Assist (HHC)
- Tyre Pressure Monitoring System (TPMS)
- Pre-Collision Warning and Automatic Emergency Braking (AEB Pedestrian and Cyclist)
- Traffic Sign Recognition (TSR)
- Blind Spot Detection with Rear Cross Traffic Alert and Lane Change Assist

ACC (Adaptive Cruise Control) + ICA (Intelligent Cruise Assistance) + TJA (Traffic Jam Assistance)

TSR (Traffic Sign Recognition) Overseas model shown.

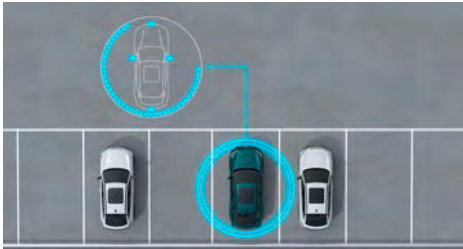

LKA (Lane Keep Assist)

IT'S ALL ABOUT YOU

Ease into any wintery trip with the New H6 HEVs Heated Steering Wheel and Front Seats. The Driver Lumbar Support with 2-Way Electric Adjust has been carefully crafted to compliment the human shape for that desired comfort.

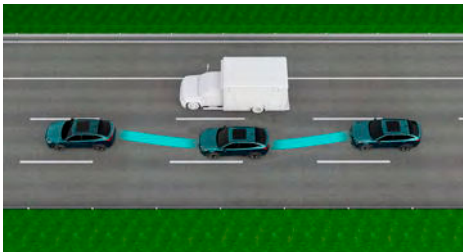

Keeping the driver and precious cargo at the forefront of the New H6 HEVs design is the resilient safety innovations. Wherever you're headed, peace of mind comes too with the H6 Hybrid boasting 7 Airbags, Front and Rear Parking Sensors and 360 Degree Camera with Panoramic View.

The New H6 HEV is the first Haval SUV in South Africa to have an innovative Fully Automatic Parking System.

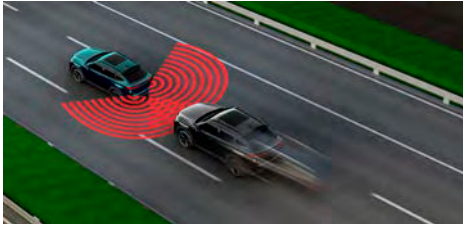

360 CAMERA - SEE EVERYTHING AROUND YOU

- A broader field of view can help avoid safety hazards.
- With four wide-angle cameras set up on the front and back, right and left of the vehicle, the 360HD view ensures zero blind spots.
- This system can detect the collision risk around the vehicle and gives a timely warning to avoid accidents.

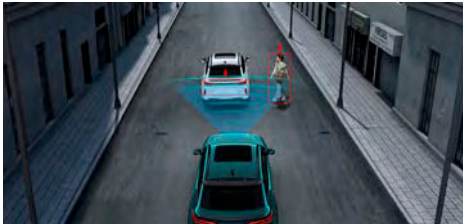

INTELLIGENT DODGE - A MOVING FORTRESS TO KEEP YOU SAFE

- Smart Collision Avoidance System.
- Keep safety a top priority while travelling.
- When overtaking a truck or a long vehicle, when activated the system will control the vehicle to ensure that a safe distance is kept.
- Once the vehicle has moved past the truck or long vehicle, it will move back to its correct position between the lane lines.

REAR COLLISION WARNING - A SIXTH SENSE

- All eyes are on the road with the Rear Collision Warning.
- An alarm is triggered when another vehicle is approaching at a higher speed.
- Driver will be alerted with double flashes and a warning tone, avoiding rear-end collisions.

AUTOMATIC EMERGENCY BRAKING (AEB) - WHEN YOU NEED IT MOST

- Avoid danger caused by a braking vehicle or sudden movement of a pedestrian, AEB is able to start braking automatically with the purpose of avoiding a collision or at least limiting its impact under 60km/h.

DOOR OPEN WARNING - SAFELY EXIT

- Avert possible accidents while parked.
- The rear of the vehicle is monitored for possible safety hazards when you are about to open a door.

AUTOMATIC PARKING WITH RMA - CONVENIENCE AT THE WHEEL

- Full automatic parking system, no need for any human intervention.
- With Reverse Memory Assistance for up to 50m.

COMPELLING AND CONTEMPORARY

The New H6 HEV combines compelling exclusivity with its sleek curves, futuristic LED Headlights, Taillamps and LED integrated Daytime Running Lamps. Reinforcing its already purposeful stance is the refined detailing from the Gloss Black Accents and Sports Rear Spoiler to the Panoramic Sunroof for natural cabin light.

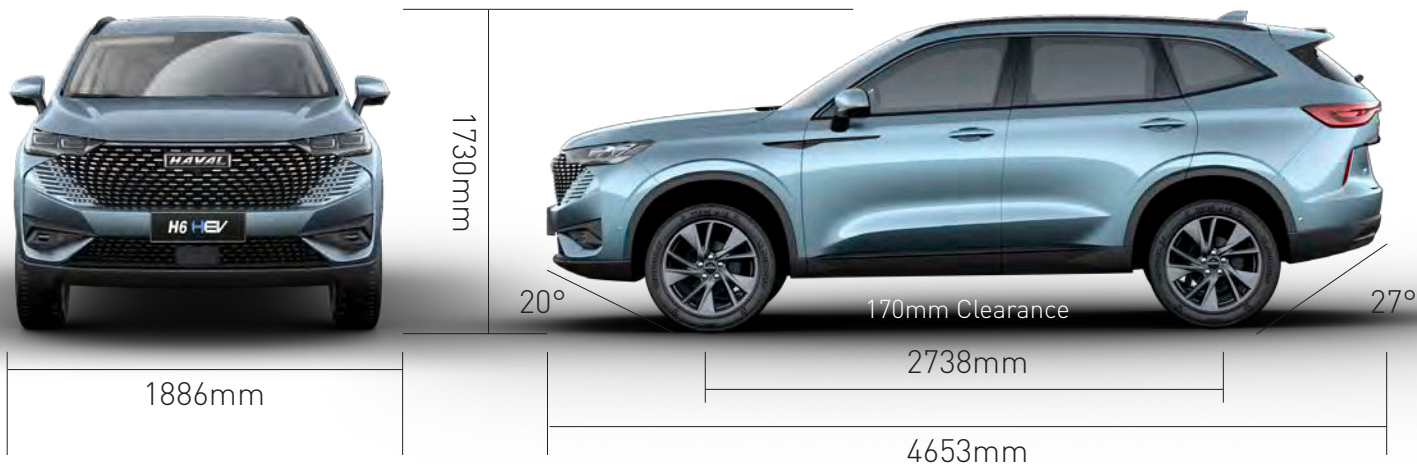

- Auto Lift Tailgate
- 225/55 R19 Sports Alloy Wheel
- Roof Rails

Modern finishes and ergonomic design only add to the futuristic comfort of the New H6 Hybrid.
